

# Instructions for Electronic Filing

## General Information

E-filing your return will electronically send your state tax return to the North Dakota Office of State Tax Commissioner. Your tax return will then be either "Accepted" or "Rejected". If your tax return is accepted it has been filed. If your tax return is rejected it has not been filed. If rejected, the issues in the tax return which caused the reject should be addressed and the tax return should be E-filed again or filed by mail.
