2013 Instructions for Schedule A (Form 1040)

Itemized **Deductions**

Use Schedule A (Form 1040) to figure your itemized deductions. In most cases, your federal income tax will be less if you take the larger of your itemized deductions or your standard deduction.

If you itemize, you can deduct a part of your medical and dental expenses and unreimbursed employee business expenses, and amounts you paid for certain taxes, interest, contributions, and miscellaneous expenses. You can also deduct certain casualty and theft losses.

If you and your spouse paid expenses jointly and are filing separate returns for 2013, see Pub. 504 to figure the portion of joint expenses that you can claim as itemized deductions.

Do not include on Schedule A items deducted elsewhere, such as on Form 1040 or Schedule C, C-EZ, E, or F.

Section references are to the Internal Revenue Code unless otherwise noted.

Future Developments. For the latest information about developments related to Schedule A (Form 1040) and its instructions, such as legislation enacted after they were published, go to www.irs.gov/schedulea.

What's New

Medical and dental expenses. Beginning January 1, 2013, you can deduct only the part of your medical and dental expenses that exceeds 10% of your adjusted gross income (7.5% if either you or your spouse was born before January 2, 1949).

Limit on itemized deductions. Beginning January 1, 2013, itemized deductions for taxpayers with adjusted gross incomes above \$150,000 may be reduced. See the instructions for line 29.

Standard mileage rates. The standard mileage rate allowed for operating expenses for a car when you use it for medical reasons is 24 cents per mile. The business standard mileage rate is 56.5 cents per mile. The 2013 rate for use of your vehicle to do volunteer work for certain charitable organizations remains at 14 cents per mile.

Ponzi-type investment schemes on Form 4684. There is a new Section C

on Form 4684 for 2013. You must complete Section C if you are claiming a theft loss deduction due to a Ponzi-type investment scheme and are using Revenue Procedure 2009-20, as modified by Revenue Procedure 2011-58. Section C of Form 4684 replaces Appendix A in Revenue Procedure 2009-20. You do not need to complete Appendix A.

Medical and Dental **Expenses**

You generally can deduct only the part of your medical and dental expenses that exceeds 10% of the amount on Form 1040, line 38. However, if either you or your spouse was born before January 2, 1949, you can deduct the part of your medical and dental expenses that exceeds 7.5% of the amount on Form 1040, line 38. See the instructions for line 3.

Pub. 502 discusses the types of expenses you can and cannot deduct. It also explains when you can deduct capital expenses and special care expenses for disabled persons.

If you received a distribution from a health savings account CAUTION or a medical savings account in 2013, see Pub. 969 to figure your de-

Examples of Medical and Dental Payments You Can Deduct

To the extent you were not reimbursed, you can deduct what you paid for:

• Insurance premiums for medical and dental care, including premiums for qualified long-term care insurance contracts as defined in Pub. 502. But see Limit on long-term care premiums you can deduct, later. Reduce the insurance premiums by any self-employed health insurance deduction you claimed on Form 1040, line 29. You cannot deduct insurance premiums paid with pretax dollars because the premiums are not included in box 1 of your Form(s) W-2. If you are a retired public safety officer, vou cannot deduct any premiums vou paid to the extent they were paid for with a tax-free distribution from your retirement plan.

If, during 2013, you were an eligible trade adjustment assis-CAUTION tance (TAA) recipient, alterna-

tive TAA (ATAA) recipient, reemployment TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, you must reduce your insurance premiums by any amounts used to figure the health coverage tax credit. See the instructions for Line 1.

Prescription medicines or insulin.

Do not deduct more than \$50 a night for each eligible person.
- Ambulance service and other travel costs to get medical care. If you used your own car, you can claim what you spent for gas and oil to go to and from the place you received the care; or you can claim 24 cents per mile. Add parking and tolls to the amount you claim under either method.
- Cost of breast pumps and supplies that assist lactation.

Deceased taxpayer. Certain medical expenses paid out of a deceased taxpaver's estate can be claimed on the deceased taxpayer's final return. See Pub. 502 for details.

Limit on long-term care premiums vou can deduct. The amount you can deduct for qualified long-term care insurance contracts (as defined in Pub. 502) depends on the age, at the end of 2013, of the person for whom the premiums were paid. See the following chart for details.

IF the person was, at the end of 2013, age	THEN the most you can deduct is
40 or under	\$ 360
41–50	\$ 680
51–60	\$ 1,360

- The cost of diet food.
- Cosmetic surgery unless it was necessary to improve a deformity related to a congenital abnormality, an injury from an accident or trauma, or a disfiguring disease.
- Life insurance or income protection policies.
- The Medicare tax on your wages and tips or the Medicare tax paid as part of the self-employment tax or household employment taxes.

Line 1

Medical and Dental Expenses

Enter the total of your medical and dental expenses, after you reduce these expenses by any payments received from insurance or other sources. See Reimbursements, later.

Do not forget to include insurance premiums you paid for medical and dental care. But if

you claimed the self-employed health insurance deduction on Form 1040, line 29, reduce the premiums by the amount on line 29.

If, during 2013, you were an eligible trade adjustment assis-CAUTION tance (TAA) recipient, alterna-

tive TAA (ATAA) recipient, reemployment TAA (RTAA) recipient, or Pension Benefit Guaranty Corporation (PBGC) pension recipient, vou must complete Form 8885 before completing Schedule A, line 1. When figuring the amount of insurance premiums you can deduct on Schedule A, do not include:

- Any amounts vou included on Form 8885. line 4.
- Any qualified health insurance premiums vou paid to
- "U.S. Treasury—HCTC," or
- Any health coverage tax credit advance payments shown in box 1 of Form 1099-Н.

Whose medical and dental expenses can vou include? You can include medical and dental bills you paid in 2013 for anyone who was one of the following either when the services were provided or when you paid for them.

- Yourself and your spouse.
- All dependents you claim on your return.
- Your child whom you do not claim as a dependent because of the rules for children of divorced or separated parents.
- Any person you could have claimed as a dependent on your return except that person received \$3,900 or more of gross income or filed a joint return.

• Any person you could have claimed as a dependent except that you, or your spouse if filing jointly, can be claimed as a dependent on someone else's 2013 return.

Example. You provided over half of your mother's support but cannot claim her as a dependent because she received wages of \$3,900 in 2013. You can include on line 1 any medical and dental expenses you paid in 2013 for your mother.

Insurance premiums for certain nondependents. You may have a medical or dental insurance policy that also covers an individual who is not your dependent (for example, a nondependent child under age 27). You cannot deduct any premiums attributable to this individual, unless they are such a person described under Whose medical and dental expenses can you include, earlier. However, if you had family coverage when you added this individual to your policy and your premiums did not increase, you can enter on line 1 the full amount of your medical and dental insurance premiums. See Pub. 502 for more informa-

Reimbursements. If your insurance company paid the provider directly for part of your expenses, and you paid only the amount that remained, include on line 1 only the amount you paid. If you received a reimbursement in 2013 for medical or dental expenses you paid in 2013, reduce your 2013 expenses by this amount. If you received a reimbursement in 2013 for prior year medical or dental expenses, do not reduce your 2013 expenses by this amount. But if you deducted the expenses in the earlier year and the deduction reduced your tax, you must include the reimbursement in income on Form 1040, line 21. See Pub. 502 for details on how to figure the amount to include.

Cafeteria plans. Do not include on line 1 insurance premiums paid by an employer-sponsored health insurance plan (cafeteria plan) unless the premiums are included in box 1 of your Form(s) W-2. Also, do not include any other medical and dental expenses paid by the plan unless the amount paid is included in box 1 of your Form(s) W-2.

Line 3

Multiply line 2 by 10%. But, if either you or your spouse was born before January 2, 1949, multiply line 2 by 7.5%. The 7.5% rate applies whether you file a joint or separate return as long as one spouse was born before January 2, 1949.

If you are claiming the 7.5% threshold amount for medical CAUTION and dental expenses, make

sure you check the appropriate box(es) on line 39a of Form 1040 for your situation. If your filing status is married filing separately or head of household, and you were not born before January 2, 1949, attach a statement to your return indicating that you are taking the 7.5% threshold because your spouse meets the requirements.

Taxes You Paid

Taxes You Cannot Deduct

- Federal income and most excise taxes.
- Social security, Medicare, federal unemployment (FUTA), and railroad retirement (RRTA) taxes.
 - Customs duties.
- Federal estate and gift taxes. But see the instructions for *Line 28*.
- Certain state and local taxes, including: tax on gasoline, car inspection fees, assessments for sidewalks or other improvements to your property, tax you paid for someone else, and license fees (marriage, driver's, dog, etc.).

Line 5

You can elect to deduct state and local general sales taxes CAUTION instead of state and local income taxes. You cannot deduct both.

State and Local Income **Taxes**

If you elect to deduct state and local income taxes, you must check box a on line 5. Include on this line the state and local income taxes listed next.

· State and local income taxes withheld from your salary during 2013. Your Form(s) W-2 will show these amounts. Forms W-2G, 1099-G, 1099-R, and 1099-MISC may also show state and local income taxes withheld.

- State and local income taxes paid in 2013 for a prior year, such as taxes paid with your 2012 state or local income tax return. Do not include penalties or interest.
- State and local estimated tax payments made during 2013, including any part of a prior year refund that you chose to have credited to your 2013 state or local income taxes.
- Mandatory contributions you made to the California, New Jersey, or New York Nonoccupational Disability Benefit Fund, Rhode Island Temporary Disability Benefit Fund, or Washington State Supplemental Workmen's Compensation Fund.
- Mandatory contributions to the Alaska, California, New Jersey, or Pennsylvania state unemployment fund.
- Mandatory contributions to state family leave programs, such as the New Jersey Family Leave Insurance (FLI) program and the California Paid Family Leave program.

Do not reduce your deduction by any:

- State or local income tax refund or credit you expect to receive for 2013, or
- Refund of, or credit for, prior year state and local income taxes you actually received in 2013. Instead, see the instructions for Form 1040, line 10.

State and Local General Sales Taxes

If you elect to deduct state and local general sales taxes, you must check box **b** on line 5. To figure your deduction, you can use either your actual expenses or the optional sales tax tables.

Actual Expenses

Generally, you can deduct the actual state and local general sales taxes (including compensating use taxes) vou paid in 2013 if the tax rate was the same as the general sales tax rate. However, sales taxes on food, clothing, medical supplies, and motor vehicles are deductible as a general sales tax even if the tax rate was less than the general sales tax rate. If you paid sales tax on a motor vehicle at a rate higher than the general sales tax rate, you can deduct only the amount of tax that you would have paid at the general sales tax rate on that vehicle. Motor vehicles include cars, motorcycles, motor homes, recreational vehicles, sport utility vehicles, trucks, vans, and off-road vehicles. Also include any state and local general sales taxes paid for a leased motor vehicle. Do not include sales taxes paid on items used in your trade or business.

You must keep your actual receipts showing general sales taxes paid to use this method.

Refund of general sales taxes. If you received a refund of state or local general sales taxes in 2013 for amounts paid in 2013, reduce your actual 2013 state and local general sales taxes by this amount. If you received a refund of state or local general sales taxes in 2013 for prior year purchases, do not reduce your 2013 state and local general sales taxes by this amount. But if you deducted your actual state and local general sales taxes in the earlier year and the deduction reduced your tax, you may have to include the refund in income on Form 1040, line 21. See Recoveries in Pub. 525 for details.

Optional Sales Tax Tables

Instead of using your actual expenses, you can use the 2013 Optional State and Certain Local Sales Tax Table and the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions at the end of these instructions to figure your state and local general sales tax deduction. You may also be able to add the state and local general sales taxes paid on certain specified items.

To figure your state and local general sales tax deduction using the tables, complete the State and Local General Sales Tax Deduction Worksheet or use the Sales Tax Deduction Calculator on the IRS website at www.irs.gov/ Individuals/Sales-Tax-Deduction-Calculator.

If your filing status is married filing separately, both you and CAUTION your spouse elect to deduct

sales taxes, and your spouse elects to use the optional sales tax tables, you also must use the tables to figure your state and local general sales tax deduction.

Instructions for the State and **Local General Sales Tax Deduction Worksheet**

Line 1. If you lived in the same state for all of 2013, enter the applicable amount, based on your 2013 income and exemptions, from the 2013 Optional State and Certain Local Sales Tax Table for your state. Read down the "At least-But less than" columns for your state and find the line that includes your 2013 income. If married filing separately, do not include your spouse's income. Your 2013 income is the amount shown on your Form 1040, line 38, plus any nontaxable items, such as the following.

- Tax-exempt interest.
- Veterans' benefits.
- Nontaxable combat pay.
- Workers' compensation.
- Nontaxable part of social security and railroad retirement benefits.
- Nontaxable part of IRA, pension, or annuity distributions. Do not include rollovers.
 - Public assistance payments.

The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if you lived in more than one state? If you lived in more than one state during 2013, look up the table amount for each state using the rules stated earlier. If there is no table for your state, the table amount is considered to be zero. Multiply the table amount for each state you lived in by a fraction. The numerator of the fraction is the number of days you lived in the state during 2013 and the denominator is the total number of days in the year (365). Enter the total of the prorated table amounts for each state on line 1. However, if you also lived in a locality during 2013 that imposed a local general sales tax, do not enter the total on line 1. Instead, complete a separate worksheet for each state vou lived in and enter the prorated amount for that state on line 1.

Example. You lived in State A from January 1 through August 31, 2013 (243 days), and in State B from September 1 through December 31, 2013 (122 days). The table amount for State A is \$500. The table amount for State B is \$400. You would figure your state general sales tax as follows.

State A:	$$500 \times 243/365 =$	\$333
State B:	\$400 x 122/365 =	134
Total	=	\$467

If none of the localities in which you lived during 2013 imposed a local general sales tax, enter \$467 on line 1 of your worksheet. Otherwise, complete a separate worksheet for State A and State B. Enter \$333 on line 1 of the State A worksheet and \$134 on line 1 of the State B worksheet.

Line 2. If you checked the "No" box, enter -0- on line 2, and go to line 3. If you checked the "Yes" box and lived in the same locality for all of 2013, enter the applicable amount, based on your 2013 income and exemptions, from the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions for your locality. Read down the "At least-But less than" columns for your locality and find the line that includes your 2013 income. See the instructions for line 1 of the worksheet to figure your 2013 income. The exemptions column refers to the number of exemptions claimed on Form 1040, line 6d.

What if you lived in more than one locality? If you lived in more than one locality during 2013, look up the table amount for each locality using the rules stated earlier. If there is no table for your locality, the table amount is considered to be zero. Multiply the table amount for each locality you lived in by a fraction. The numerator of the fraction is the number of days you lived in the locality during 2013 and the denominator is the total number of days in the year (365). If you lived in more than one locality in the same state and the local general sales tax rate was the same for each locality, enter the total of the prorated table amounts for each locality in that state on line 2. Otherwise, complete a separate worksheet for lines 2 through 6 for each locality and enter each prorated table amount on line 2 of the applicable worksheet.

Example. You lived in Locality 1 from January 1 through August 31, 2013 (243 days), and in Locality 2 from September 1 through December 31, 2013 (122 days). The table amount for Locality 1 is \$100. The table amount for Locality 2 is \$150. You would figure the amount to enter on line 2 as follows. Note that this amount may not equal your local sales tax deduction, which is figured on line 6 of the worksheet.

Locality 1: $$100 \times 243/365 = 67 Locality 2: $$150 \times 122/365 = 50$ Total = \$117 Line 3. If you lived in California, check the "No" box if your combined state and local general sales tax rate is 7.5000%. Otherwise, check the "Yes" box and include on line 3 only the part of the

combined rate that is more than 7.5000%.

If you lived in Nevada, check the "No" box if your combined state and local general sales tax rate is 6.8500%. Otherwise, check the "Yes" box and include on line 3 only the part of the combined rate that is more than 6.8500%.

What if your local general sales tax rate changed during 2013? If you checked the "Yes" box and your local general sales tax rate changed during 2013, figure the rate to enter on line 3 as follows. Multiply each tax rate for the period it was in effect by a fraction. The numerator of the fraction is the number of days the rate was in effect during 2013 and the denominator is the total number of days in the year (365). Enter the total of the prorated tax rates on line 3.

Example. Locality 1 imposed a 1% local general sales tax from January 1 through September 30, 2013 (273 days). The rate increased to 1.75% for the period from October 1 through December 31, 2013 (92 days). You would enter "1.189" on line 3, figured as follows.

January 1 - $1.00 \times 273/365 = 0.748$ September 30:

October 1 -

 $1.75 \times 92/365 = \underbrace{0.441}_{= 1.189}$ December 31: Total

What if you lived in more than one locality in the same state during 2013? Complete a separate worksheet for lines 2 through 6 for each locality in your state if you lived in more than one locality in the same state during 2013 and each locality did not have the same local general sales tax rate.

To figure the amount to enter on line 3 of the worksheet for each locality in which you lived (except a locality for which you used the 2013 Optional Local Sales Tax Tables for Certain Local Jurisdictions to figure your local general sales tax deduction), multiply the local general sales tax rate by a fraction. The numerator of the fraction is the number of days you lived in the locality during 2013 and the denominator is the total number of days in the year (365).

Example. You lived in Locality 1 from January 1 through August 31, 2013 (243 days), and in Locality 2 from September 1 through December 31, 2013 (122 days). The local general sales tax rate for Locality 1 is 1%. The rate for Locality 2 is 1.75%. You would enter "0.666" on line 3 for the Locality 1 worksheet and "0.585" for the Locality 2 worksheet, figured as follows.

Locality 1: $1.00 \times 243/365 = 0.666$ Locality 2: $1.75 \times 122/365 = 0.585$

Line 6. If you lived in more than one locality in the same state during 2013, you should have completed line 1 only on the first worksheet for that state and separate worksheets for lines 2 through 6 for any other locality within that state in which you lived during 2013. If you checked the "Yes" box on line 6 of any of those worksheets, multiply line 5 of that worksheet by the amount that you entered on line 1 for that state on the first worksheet.

Line 7. Enter on line 7 any state and local general sales taxes paid on the following specified items. If you are completing more than one worksheet, include the total for line 7 on only one of the worksheets.

- 1. A motor vehicle (including a car, motorcycle, motor home, recreational vehicle, sport utility vehicle, truck, van, and off-road vehicle). Also include any state and local general sales taxes paid for a leased motor vehicle. If the state sales tax rate on these items is higher than the general sales tax rate, only include the amount of tax you would have paid at the general sales tax rate.
- 2. An aircraft or boat, if the tax rate was the same as the general sales tax rate.
- 3. A home (including a mobile home or prefabricated home) or substantial addition to or major renovation of a home, but only if the tax rate was the same as the general sales tax rate and any of the following applies.
- a. Your state or locality imposes a general sales tax directly on the sale of a home or on the cost of a substantial addition or major renovation.
- b. You purchased the materials to build a home or substantial addition or to perform a major renovation and paid the sales tax directly.
- c. Under your state law, your contractor is considered your agent in the

construction of the home or substantial addition or the performance of a major renovation. The contract must state that the contractor is authorized to act in vour name and must follow vour directions on construction decisions. In this case, you will be considered to have purchased any items subject to a sales tax and to have paid the sales tax directly.

Do not include sales taxes paid on items used in your trade or business. If you received a refund of state or local general sales taxes in 2013, see Refund of general sales taxes, earlier.

Line 6

Real Estate Taxes

If you are a homeowner who received assistance under a State Housing Finance Agency

Hardest Hit Fund program or an Emergency Homeowners' Loan program, see Pub. 530 for the amount you can deduct on line 6.

Include taxes (state, local, or foreign) you paid on real estate you own that was not used for business, but only if the taxes are assessed uniformly at a like rate on all real property throughout the community, and the proceeds are used for general community or governmental purposes. Pub. 530 explains the deductions homeowners can take.

Do not include the following amounts on line 6.

- Itemized charges for services to specific property or persons (for example, a \$20 monthly charge per house for trash collection, a \$5 charge for every 1,000 gallons of water consumed, or a flat charge for mowing a lawn that had grown higher than permitted under a local ordinance).
- Charges for improvements that tend to increase the value of your property (for example, an assessment to build a new sidewalk). The cost of a property improvement is added to the basis of the property. However, a charge is deductible if it is used only to maintain an existing public facility in service (for example, a charge to repair an existing sidewalk, and any interest included in that charge).

If your mortgage payments include your real estate taxes, you can deduct only the amount the mortgage company actually paid to the taxing authority in 2013.

If you sold your home in 2013, any real estate tax charged to the buyer should be shown on your settlement statement and in box 5 of any Form 1099-S you received. This amount is considered a refund of real estate taxes. See Refunds and rebates, later. Any real estate taxes you paid at closing should be shown on your settlement statement.

You must look at your real estate tax bill to decide if any CAUTION nondeductible itemized charg-

es, such as those listed earlier, are included in the bill. If your taxing authority (or lender) does not furnish you a copy of your real estate tax bill, ask for

Refunds and rebates. If you received a refund or rebate in 2013 of real estate taxes you paid in 2013, reduce your deduction by the amount of the refund or rebate. If you received a refund or rebate in 2013 of real estate taxes you paid in an earlier year, do not reduce your deduction by this amount. Instead, you must include the refund or rebate in income on Form 1040, line 21, if you deducted the real estate taxes in the earlier year and the deduction reduced your tax. See Recoveries in Pub. 525 for details on how to figure the amount to include in income.

Line 7

Personal Property Taxes

Enter the state and local personal property taxes you paid, but only if the taxes were based on value alone and were imposed on a yearly basis.

Example. You paid a yearly fee for the registration of your car. Part of the fee was based on the car's value and part was based on its weight. You can deduct only the part of the fee that was based on the car's value.

Line 8

Other Taxes

If you had any deductible tax not listed on line 5, 6, or 7, list the type and amount of tax. Enter only one total on line 8. Include on this line income tax

you paid to a foreign country or U.S. possession.

You may want to take a credit for the foreign tax instead of a deduction. See the instructions

for Form 1040, line 47, for details.

Interest You Paid

Whether your interest expense is treated as investment interest, personal interest, or business interest depends on how and when you used the loan proceeds. See Pub. 535 for details.

In general, if you paid interest in 2013 that applies to any period after 2013, you can deduct only amounts that apply for 2013.

Lines 10 and 11

Home Mortgage Interest

If you are a homeowner who received assistance under a State Housing Finance Agency

Hardest Hit Fund program or an Emergency Homeowners' Loan program, see Pub. 530 for the amount you can deduct on line 10 or 11.

A home mortgage is any loan that is secured by your main home or second home. It includes first and second mortgages, home equity loans, and refinanced mortgages.

A home can be a house, condominium, cooperative, mobile home, boat, or similar property. It must provide basic living accommodations including sleeping space, toilet, and cooking facilities.

Limit on home mortgage interest. If you took out any mortgages after October 13, 1987, your deduction may be limited. Any additional amounts borrowed after October 13, 1987, on a line-of-credit mortgage you had on that date are treated as a mortgage taken out after October 13, 1987. If you refinanced a mortgage you had on October 13, 1987, treat the new mortgage as taken out on or before October 13, 1987. But if you refinanced for more than the balance of the old mortgage, treat the excess as a mortgage taken out after October 13, 1987.

See Pub. 936 to figure your deduction if either (1) or (2) next applies. If you had more than one home at the same time, the dollar amounts in (1) and (2) apply to the total mortgages on both homes.

- 1. You took out any mortgages after October 13, 1987, and used the proceeds for purposes other than to buy, build, or improve your home, and all of these mortgages totaled over \$100,000 at any time during 2013. The limit is \$50,000 if married filing separately. An example of this type of mortgage is a home equity loan used to pay off credit card bills, buy a car, or pay tuition.
- 2. You took out any mortgages after October 13, 1987, and used the proceeds to buy, build, or improve your home, and these mortgages plus any mortgages you took out on or before October 13, 1987, totaled over \$1 million at any time during 2013. The limit is \$500,000 if married filing separately.

If the total amount of all mortgages is more than the fair CAUTION market value of the home, additional limits apply. See Pub. 936.

Line 10

Enter on line 10 mortgage interest and points reported to you on Form 1098. If your Form 1098 shows any refund of overpaid interest, do not reduce your deduction by the refund. Instead, see the instructions for Form 1040, line 21. If you and at least one other person (other than your spouse if filing jointly) were liable for and paid interest on the mortgage, and the interest was reported on the other person's Form 1098, report your share of the interest on line 11 (as explained in the line 11 instructions).

If you paid more interest to the recipient than is shown on Form 1098, see Pub. 936 to find out if you can deduct the additional interest. If you can, attach a statement to your paper return explaining the difference and enter "See attached" to the right of line 10.

If you are claiming the mortgage interest credit (for hold-**CAUTION** ers of qualified mortgage cred-

it certificates issued by state or local governmental units or agencies), subtract the amount shown on Form 8396, line 3, from the total deductible interest you paid on your home mortgage. Enter the result on line 10.

Line 11

If you paid home mortgage insurance interest and it was not reported to you on Form 1098, report your deductible mortgage interest on line 11.

If you paid home mortgage insurance interest to the person from whom you bought the home, write that person's name, identifying number, and address on the dotted lines next to line 11. If the recipient of your home mortgage interest payment(s) is an individual, the identifying number is his or her social security number (SSN). Otherwise, it is the employer identification number. You must also let the recipient know your SSN. If you do not show the required information about the recipient or let the recipient know your SSN, you may have to pay a \$50 penalty.

If you and at least one other person (other than your spouse if filing jointly) were liable for and paid interest on the mortgage, and the home mortgage interest paid was reported on the other person's Form 1098, attach a statement to your paper return listing the name and address of that person. To the right of line 11, enter "See attached."

Line 12

Points Not Reported on Form 1098

Points are shown on your settlement statement. Points you paid only to borrow money are generally deductible over the life of the loan. See Pub. 936 to figure the amount you can deduct. Points paid for other purposes, such as for a lender's services, are not deductible.

Refinancing. Generally, you must deduct points you paid to refinance a mortgage over the life of the loan. This is true even if the new mortgage is secured by your main home.

If you used part of the proceeds to improve your main home, you may be able to deduct the part of the points related to the improvement in the year paid. See Pub. 936 for details.

If you paid off a mortgage early, deduct any remaining points in the year you paid off

the mortgage. However, if you refinanced vour mortgage with the same lender, see Mortgage ending early in Pub. 936 for an exception.

Line 13

Mortgage Insurance Premiums

Enter the qualified mortgage insurance premiums you paid under a mortgage insurance contract issued after December 31, 2006, in connection with home acquisition debt that was secured by your first or second home. Box 4 of Form 1098 may show the amount of premiums you paid in 2013. If you and at least one other person (other than your spouse if filing jointly) were liable for and paid the premiums in connection with the loan, and the premiums were reported on the other person's Form 1098, report your share of the premiums on line 13. See Prepaid mortgage insurance premiums, later, if you paid any premiums allocable to any period after 2013.

Qualified mortgage insurance is mortgage insurance provided by the Department of Veterans Affairs, the Federal Housing Administration, or the Rural Housing Service (or their successor organizations), and private mortgage insurance (as defined in section 2 of the Homeowners Protection Act of 1998 as in effect on December 20, 2006).

Mortgage insurance provided by the Department of Veterans Affairs and the Rural Housing Service is commonly known as a funding fee and guarantee fee respectively. These fees can be deducted fully in 2013 if the mortgage insurance contract was issued in 2013. Contact the mortgage insurance issuer to determine the deductible amount if it is not included in box 4 of Form 1098.

Prepaid mortgage insurance premiums. If you paid qualified mortgage insurance premiums that are allocable to periods after 2013, you must allocate them over the shorter of:

- The stated term of the mortgage, or
- 84 months, beginning with the month the insurance was obtained.

The premiums are treated as paid in the year to which they are allocated. If the mortgage is satisfied before its term, no deduction is allowed for the unamortized balance. See Pub. 936 for details.

The allocation rules, explained earlier, do not apply to qualified mortgage insurance provided by the Department of Veterans Affairs or the Rural Housing Service (or their successor organizations).

Limit on amount you can deduct. You cannot deduct your mortgage insurance premiums if the amount on Form 1040, line 38, is more than \$109,000 (\$54,500 if married filing separately). If the amount on Form 1040, line 38, is more than \$100,000 (\$50,000 if married filing separately), your deduction is limited and you must use the Mortgage Insurance Premiums Deduction Worksheet to figure your deduction.

Line 14

Investment Interest

Investment interest is interest paid on money you borrowed that is allocable to property held for investment. It does not include any interest allocable to passive activities or to securities that generate tax-exempt income.

Complete and attach Form 4952 to figure your deduction.

Exception. You do not have to file Form 4952 if all three of the following apply.

- 1. Your investment interest expense is not more than your investment income from interest and ordinary dividends minus any qualified dividends.
- 2. You have no other deductible investment expenses.
- 3. You have no disallowed investment interest expense from 2012.

Alaska Permanent Fund dividends, including those repor-CAUTION ted on Form 8814, are not in-

vestment income.

For more details, see Pub. 550.

Gifts to Charity

You can deduct contributions or gifts you gave to organizations that are religious, charitable, educational, scientific, or literary in purpose. You can also deduct what you gave to organizations that work to prevent cruelty to children or animals. Certain whaling captains may be able to deduct expenses paid in 2013 for Native Alaskan subsistence bowhead whale hunting activities. See Pub. 526 for details.

To verify an organization's charitable status, you can:

- Check with the organization to which you made the donation. The organization should be able to provide you with verification of its charitable status.
- Use our on-line search tool <u>Exempt Organizations Select Check</u> to see if an organization is eligible to receive tax-deductible contributions (Publication 78 data). You can access <u>Exempt Organizations Select Check</u> on IRS.gov. Click on "Tools" then on Exempt Organizations Select Check.
- Call our Tax Exempt/Government Entities Customer Account Services at 1-877-829-5500.

Examples of Qualified Charitable Organizations

- Churches, mosques, synagogues, temples, etc.
- Boy Scouts, Boys and Girls Clubs of America, CARE, Girl Scouts, Goodwill Industries, Red Cross, Salvation Army, United Way, etc.

- Fraternal orders, if the gifts will be used for the purposes listed under <u>Gifts</u> to Charity, earlier.
- Veterans' and certain cultural groups.
- Nonprofit hospitals, and organizations whose purpose is to find a cure for, or help people who have, arthritis, asthma, birth defects, cancer, cerebral palsy, cystic fibrosis, diabetes, heart disease, hemophilia, mental illness or retardation, multiple sclerosis, muscular dystrophy, tuberculosis, etc.
- Most nonprofit educational organizations, such as colleges, but only if your contribution is not a substitute for tuition or other enrollment fees.
- Federal, state, and local governments if the gifts are solely for public purposes.

Amounts You Can Deduct

Contributions can be in cash, property, or out-of-pocket expenses you paid to do volunteer work for the kinds of organizations described earlier. If you drove to and from the volunteer work, you can take the actual cost of gas and oil or 14 cents a mile. Add parking and tolls to the amount you claim under either method. But do not deduct any amounts that were repaid to you.

Gifts from which you benefit. If you made a gift and received a benefit in return, such as food, entertainment, or

merchandise, you can generally only deduct the amount that is more than the value of the benefit. But this rule does not apply to certain membership benefits provided in return for an annual payment of \$75 or less or to certain items or benefits of token value. For details, see Pub. 526

Example. You paid \$70 to a charitable organization to attend a fund-raising dinner and the value of the dinner was \$40. You can deduct only \$30.

Gifts of \$250 or more. You can deduct a gift of \$250 or more only if you have a statement from the charitable organization showing the information in (1) and (2) next.

- 1. The amount of any money contributed and a description (but not value) of any property donated.
- 2. Whether the organization did or did not give you any goods or services in return for your contribution. If you did receive any goods or services, a description and estimate of the value must be included. If you received only intangible religious benefits (such as admission to a religious ceremony), the organization must state this, but it does not have to describe or value the benefit.

In figuring whether a gift is \$250 or more, do not combine separate donations. For example, if you gave your church \$25 each week for a total of

You must get the statement by **TIP** the date you file your return or the due date (including exten-

sions) for filing your return, whichever is earlier. Do not attach the statement to your return. Instead, keep it for your records.

Limit on the amount you can deduct. See Pub. 526 to figure the amount of your deduction if any of the following applies.

- 1. Your cash contributions or contributions of ordinary income property are more than 30% of the amount on Form 1040, line 38.
- 2. Your gifts of capital gain property are more than 20% of the amount on Form 1040, line 38.
- 3. You gave gifts of property that increased in value or gave gifts of the use of property.

Amounts You Cannot Deduct

- Travel expenses (including meals and lodging) while away from home, unless there was no significant element of personal pleasure, recreation, or vacation in the travel.
 - Political contributions.
- Dues, fees, or bills paid to country clubs, lodges, fraternal orders, or similar groups.
- Cost of raffle, bingo, or lottery tickets. But you may be able to deduct these expenses on line 28. See the instructions for Line 28 for more information on gambling losses.
 - Value of your time or services.
- Value of blood given to a blood
- The transfer of a future interest in tangible personal property (generally, until the entire interest has been transferred).
- Gifts to individuals and groups that are run for personal profit.
- Gifts to foreign organizations. But you may be able to deduct gifts to certain U.S. organizations that transfer

funds to foreign charities and certain Canadian, Israeli, and Mexican charities. See Pub. 526 for details.

- Gifts to organizations engaged in certain political activities that are of direct financial interest to your trade or business. See section 170(f)(9).
- Gifts to groups whose purpose is to lobby for changes in the laws.
- Gifts to civic leagues, social and sports clubs, labor unions, and chambers of commerce.
- Value of benefits received in connection with a contribution to a charitable organization. See Pub. 526 for exceptions.
- Cost of tuition. But you may be able to deduct this as a job education expense on line 21; as a tuition and fees deduction on Form 1040, line 34; or take an education credit (see Form 8863).

Line 16

Gifts by Cash or Check

Enter on line 16 the total value of gifts you made in cash or by check (including out-of-pocket expenses).

Recordkeeping. For any contribution made in cash, regardless of the amount, you must maintain as a record of the contribution a bank record (such as a canceled check or credit card statement) or a written record from the charity. The written record must include the name of the charity, date, and amount of the contribution. If you made contributions through payroll deduction, see Pub. 526 for information on the records you must keep. Do not attach the record to your tax return. Instead, keep it with your other tax records.

Line 17

Other Than by Cash or Check

Enter on line 17 the total value of your contributions of property other than by cash or check. If you gave used items, such as clothing or furniture, deduct their fair market value at the time you gave them. Fair market value is what a willing buyer would pay a willing seller when neither has to buy or sell and both are aware of the conditions of the sale. For more details on determining the value of donated property, see Pub. 561.

If the amount of your deduction is more than \$500, you must complete and attach Form 8283. For this purpose, the "amount of your deduction" means your deduction before applying any income limits that could result in a carryover of contributions. If you deduct more than \$500 for a contribution of a motor vehicle, boat, or airplane, you must also attach a statement from the charitable organization to your paper return. The organization may use Form 1098-C to provide the required information. If your total deduction is over \$5,000 (\$500 for certain contributions of clothing and household items (discussed next)), you may also have to get appraisals of the values of the donated property. See Form 8283 and its instructions for details

Contributions of clothing and household items. A deduction for these contributions will be allowed only if the items are in good used condition or better. However, this rule does not apply to a contribution of any single item for which a deduction of more than \$500 is claimed and for which you include a qualified appraisal and Form 8283 with your tax return.

Recordkeeping. If you gave property, you should keep a receipt or written statement from the organization you gave the property to, or a reliable written record, that shows the organization's name and address, the date and location of the gift, and a description of the property. For each gift of property, you should also keep reliable written records that include:

- How you figured the property's value at the time you gave it. If the value was determined by an appraisal, keep a signed copy of the appraisal.
- The cost or other basis of the property if you must reduce it by any ordinary income or capital gain that would have resulted if the property had been sold at its fair market value.
- How you figured your deduction if you chose to reduce your deduction for gifts of capital gain property.
 - Any conditions attached to the gift.

If your total deduction for gifts of property is over \$500, you **CAUTION** gave less than your entire in-

terest in the property, or you made a "aualified conservation contribution." your records should contain additional information. See Pub. 526 for details.

Line 18

Carryover From Prior Year

Enter any carryover of contributions that you could not deduct in an earlier year because they exceeded your adjusted gross income limit. See Pub. 526 for details.

Casualty and Theft Losses

Line 20

Complete and attach Form 4684 to figure the amount of your loss to enter on line 20.

You may be able to deduct part or all of each loss caused by theft, vandalism, fire, storm, or similar causes; car, boat, and other accidents; and corrosive drywall. You may also be able to deduct money you had in a financial institution but lost because of the insolvency or bankruptcy of the institution.

You can deduct personal casualty or theft losses only to the extent that:

- 1. The amount of each separate casualty or theft loss is more than \$100,
- 2. The total amount of all losses during the year (reduced by the \$100 limit discussed in (1)) is more than 10% of the amount on Form 1040, line 38.

Corrosive drywall losses. If you paid for repairs to your personal residence or household appliances because of corrosive drywall that was installed between 2001 and 2008, you may be able to deduct on line 20 those amounts paid. See Pub. 547 for details.

Use Schedule A, line 23, to deduct the costs of proving that you had a property loss. Examples of these costs are appraisal fees and photographs used to establish the amount of your loss.

Job Expenses and Certain **Miscellaneous Deductions**

You can deduct only the part of these expenses that exceeds 2% of the amount on Form 1040, line 38.

Pub. 529 discusses the types of expenses that can and cannot be deducted.

Line 21

Unreimbursed Employee Expenses

Enter the total ordinary and necessary job expenses you paid for which you were not reimbursed. (Amounts your employer included in box 1 of your Form W-2 are not considered reimbursements.)

An ordinary expense is one that is common and accepted in your field of trade, business, or profession. A necessary expense is one that is helpful and appropriate for your business. An expense does not have to be required to be considered necessary.

But you must fill in and attach Form 2106 if either (1) or (2), next, applies.

- 1. You claim any travel, transportation, meal, or entertainment expenses for vour job.
- 2. Your employer paid you for any of your job expenses that you would otherwise report on line 21.

If you used your own vehicle, are using the standard mileage rate, and (2) earlier, does not

apply, you may be able to file Form 2106-EZ instead.

If you do not have to file Form 2106 or 2106-EZ, list the type and amount of each expense on the dotted line next to line 21. If you need more space, attach a statement to your paper return showing the type and amount of each expense. Enter the total of all these expenses on line 21.

Do not include on line 21 any educator expenses you deduc-CAUTION ted on Form 1040, line 23.

You may be able to take a credit for your educational expenses instead of a deduction.

See Form 8863 for details.

Line 22

Tax Preparation Fees

List the type and amount of each expense on the dotted lines next to line 23. If you need more space, attach a statement to your paper return showing the type and amount of each expense. - Clerical help and office rent.
- Custodial (for example, trust account) fees.
